## **WHO WE ARE**

We are a professional care giving company that helps you with your day-to-day care giving and tasks. We offer non-clinical help, such as meal preparation, companionship, and other activities of your daily living (ADL). Our home care includes any care support services that allow a person to live safely in their homes. We help someone who is aging and needs assistance to live independently; is recovering from medical setback; or has special needs. Also, as home caregivers, we assist you with impairments related to old age, disability, a disease or a mental disorder.

ConnectCare Services, provides a well-coordinated home care to individuals in the comforts of the home. We are available 24 hours a day, seven days

a week. We work closely with clients and our goal is to assist in their care plan which is delivered in their home environment. Our highly trained home care professionals manage every aspect of the client's related home care needs.

We believe that there is no place like your home that provides a relaxing environment. Having friends, family and familiar surroundings allow clients to be more comfortable and live more happily.

## **VISION**

To have a rewarding relationship as a home care agency with consumers and businesses

## **MISSION**

To promote, maintain and maximize our clients well-being by providing efficient and reliable home care that gives our clients the real comfort in

their homes.

## OUR SERVICES

We provide non-home care services for client's wellness at the comfort of their homes. Our services include taking of someone who has a chronic illness or disease; managing medications or talking to doctors and nurses on someone's behalf; helping to bathe or dress someone who is frail or disabled; or taking care of household chores, meals, or processes both formal and informal documentation related to health for someone who cannot do these things alone.

### Some our services include the following: **Personal Care:**

Personal care: Some seniors need help

and health of our clients.

**Walking and Mobility:** Our caregivers carefully consider the physical limitations and comfort of each client's ability to walk, climb stairs, get in and out of vehicles, and make other routine movements as they assist them.

**Transfer and Posture:** In addition, our personal caregivers ensure each client maintains proper posture for eating or while sitting and reading or watching television. This helps with digestion and circulation. We can also assist with helping clients get in and out of bed or the bathroom.

### **Continence and Toileting Care:**

with daily tasks like dressing, bathing, and eating. We can you manage your medications and some symptoms of aging including incontinence.

**Bathing and Hygiene:** For many health and social reasons, good personal hygiene is very paramount. Our caregivers are specially trained in bathing, personal hygiene and other personal care services, and always focus on preserving the dignity, comfort,

ConnectCare caregivers are trained and experienced in assisting with urinary and bowel care. We understand the role that toileting care can play in a client's comfort, self-esteem, and social life.

**Special Diets and Meal Preparation:** We work with clients, families, and nutrition professionals to plan and prepare meals according to the specific needs of our clients. This can include

shopping for special diets (diabetic, low-sodium, low-trans-fat, etc.) and working to fix favorite dishes just right.

**Eating Assistance:** Some of our clients may have physical and emotional challenges in the ability to perform basic functions. Our personal care services provide exceptional sensitivity, care, and safety for clients with these challenges.

**Oral Hygiene:** Our caregivers can help clients with mouth, gum, and denture care to encourage better overall oral hygiene.

**Homemaking:** Seniors who are mostly independent can benefit from our homemaking help, which is another service provided by non-medical in-home care. We help you keep your home clean, make healthy meals and can provide transportation when you need to run errands or make it to ap-pointments.

### **Companionship:**

As non-medical caregivers, one of the most important services we offer is simple companionship. For many seniors, living at home can feel isolating, especially after the death of a spouse. Our companion care can provide much-needed emotional support.
